- Practice light cardio like walking or cycling for 30 mins daily.

## Daily Lifestyle

- Maintain a balanced daily routine with work, rest, and hobbies.
- Set achievable goals and prioritize self-care.

## Nutrition

- Eat a balanced diet rich in fruits, vegetables, and whole grains.
- Avoid excessive caffeine and sugar.
- Prioritize balanced meals and hydration.

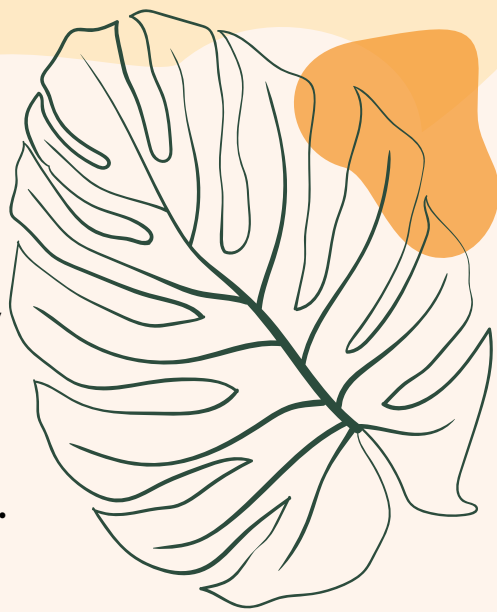

***Take the first step to prioritize your mental health today. You're not alone!***

# Books & Articles

- The Happiness Trap by Russ Harris.
- Brain Lock by Jeffrey M. Schwartz.
- Online articles on coping strategies for anxiety and OCD.

# Hobbies & Activities

- Painting, music, and creative writing.
- Gardening or taking care of house plants.
- Engaging in community service or volunteer work.

# Professional Satisfaction & Structure

- Maintain work-life balance by setting boundaries
- Take short breaks during work to avoid burnout.
- Organize tasks using planners or productivity tools.

# CBT Techniques to Incorporate

- Challenge irrational thoughts with logical reasoning.
- Gradual exposure to feared situations in a controlled manner.
- Practice relaxation techniques like progressive muscle relaxation.

Remember, everyone's OCD journey is unique. Be patient and kind to yourself.
